# Attack

1

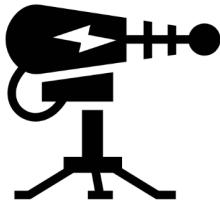

If a player is not the aggressor and there is a ship considered the aggressor, that player can attack that ship for how many attack cards he has. If there is no aggressor that player cannot attack. If the player is the aggressor that player deals damage to each of the other players equivalent to the number of attack cards they hold.

# Aggressor

The first player to keep attack cards becomes the aggressor and takes this card. The aggressor gets 1 point of data when they become the aggressor and for each turn they stay the aggressor. The player can swap being the aggressor with a player after that player attacks. The aggressor attacks every other player, but cannot heal.
